

ADDITION BOARD GAME

You will need:

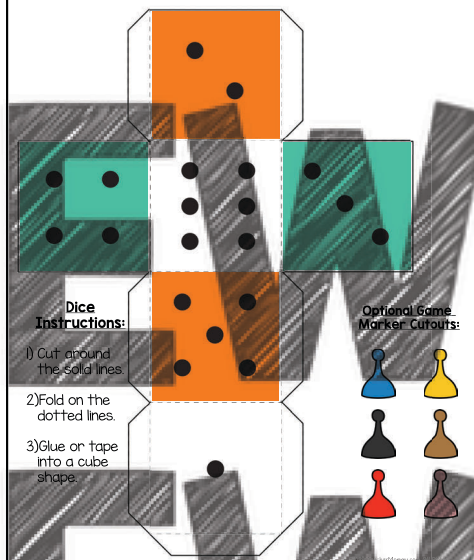

- Game board
- Dice & Markers
- Playing Cards
- Scissors & glue

Game Play Instructions:

- Students will place all their pieces on "start" and take turns playing. To begin each turn, students will draw an addition card and solve the problem.
- Once they have given the answer, they will roll the dice. They will move forward that many steps on the game board.
- If they land on a star, they get to take another turn.
- Once their turn is complete, the next person gets to play.
- Students will take turns following this pattern. Game play continues until the first student reaches the "Finish" and wins!
- Game play may continue as long as students are engaged, or as long as time is allotted.
- **HELPFUL HINT:** Be sure to walk around and assist the students! Some children may need some help solving the problems.
