Lower & Upper Grades

Fully Responsive!

Use on any device.

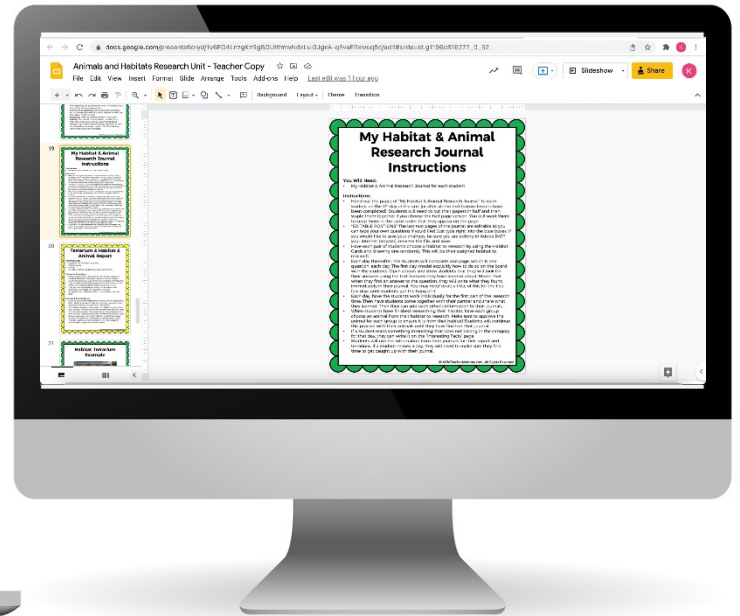

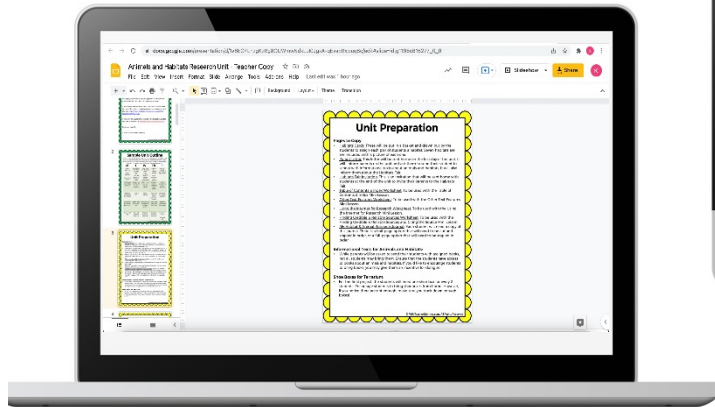

This unit can be used on any device using Google Slides! No printing required- you can assign the pages digitally. Google Slides even has a mobile app for some devices.

Unit Outline & Lesson Plans for Easy Planning

You can scroll through all the lessons & get an overview on the left side panel

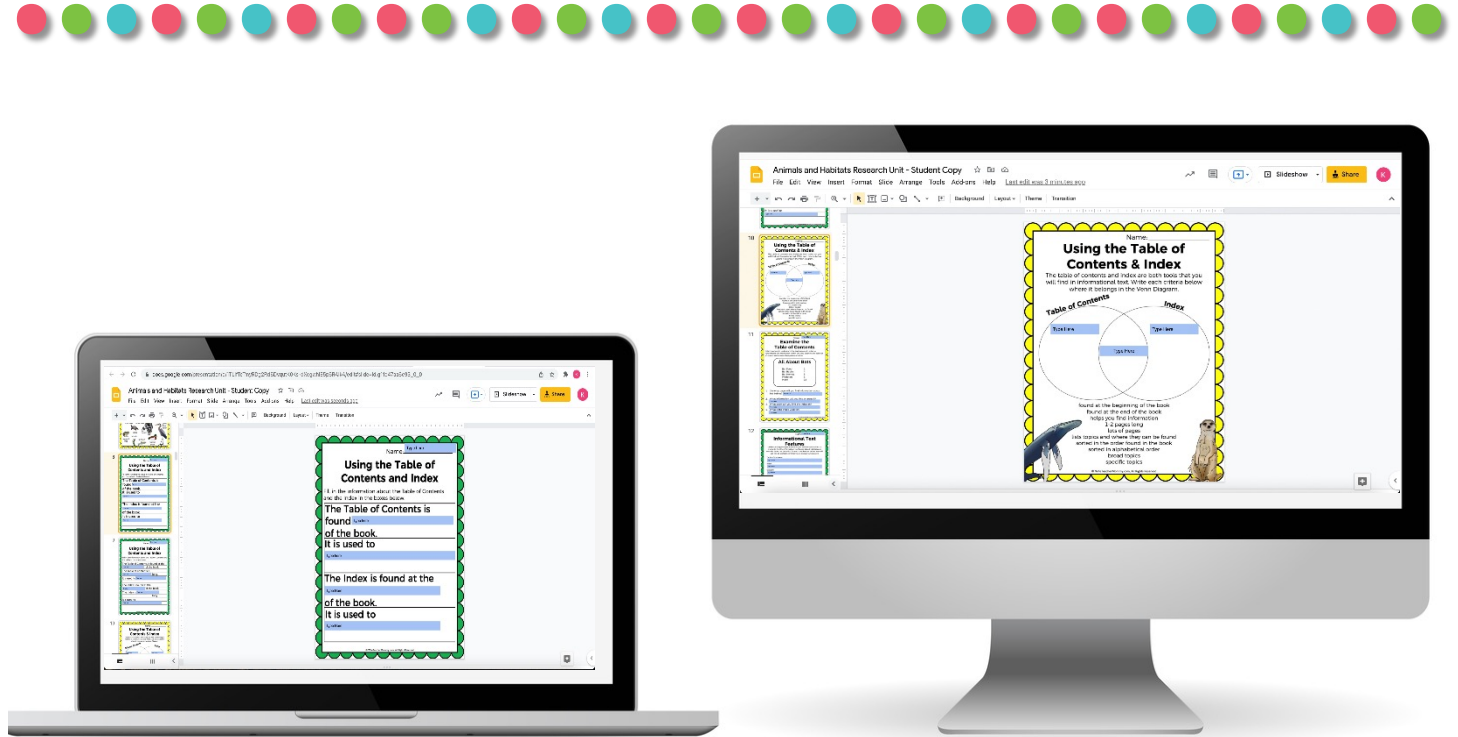

The unit sample outline gives you an idea of how you could implement the unit into your schedule. (However, feel free to implement the activities however you see fit!) We have included lesson plans to prep your students for their research projects.

Parent Letter and Invitation to Keep Parents Involved

We have included a letter to parents and a Habitats Fair invitation to help keep your students' parents and guardians involved and informed. You can type the dates and your name right into the letter.

Differentiated Student Worksheets to Teach Each Element of the Research Project

Differentiated student worksheets are included for each mini lesson. We have created these worksheets to help your students of all ages learn each element of a research project in a simple easy to understand way.

Habitat Cards to Randomly Assign a Habitat to Each Student

We have selected 7 different habitats and have included cards spotlighting each of them for you to print, cut, and mix in a basket. Students will randomly choose which habitat they will research.

Colorful, Educational, & Easy to Understand Habitat Posters to Help Inspire Your Students

We have created colorful, easy to understand posters to go along with each of the habitats. These can be used to help students think of keywords for their research or to help them with their habitat terrariums.

Multiple ½ Page and Full Sheet Student Research Journal Pages to Reach all Levels of Learners

The student research journal pages include differentiated pages of research prompts for students covering habitats. We have also included blank pages to create your own prompts.

Final Project With Grading Rubric for Easy Assessment of Student Understanding

Students will complete their final project by writing a report about their assigned habitat and then create a habitat terrarium. We have included an easy-to-follow grading rubric to make assessments quick and easy.
