Name _____

Changes Happen

Define chemical and physical changes below. Then, write each image shows a chemical or physical change.

Chemical Change: _____

Physical Change: _____

 Baking a Cake

 Bending a Wire

 Lighting a Match

Gravity

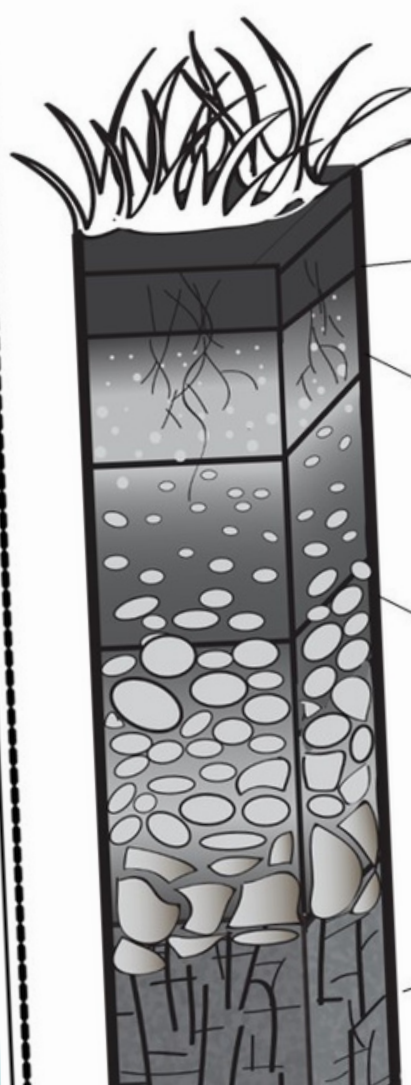

Did you know that you would not weigh the same on another planet as you do on Earth? You would weigh on each of the planets. You will multiply your weight on Earth by the gravity of each planet. Use a calculator to solve the problems. Make sure you use decimal points.

	Your Weight
Mercury	
Venus	
Earth	
Mars	
Jupiter	
Saturn	
Neptune	
Pluto	
The Moon	

Name _____

Layers Of Soil

Define each layer of soil and what it is made of.

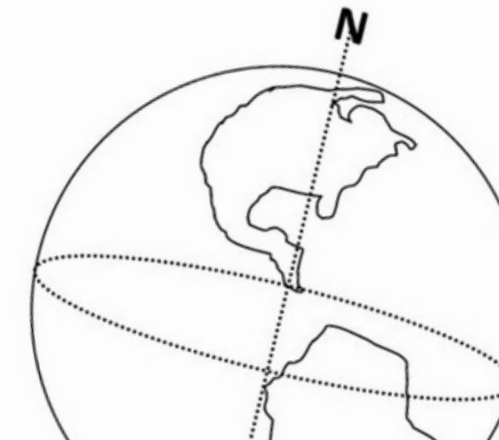

Name _____

Northern & Southern Hemispheres

Using what you know about the Earth's tilted axis and the Earth's relation to the sun to answer the following question: Why are the seasons in the Northern Hemisphere and Southern Hemisphere reversed? Use as many details as you can and fill the entire space below.

How would your life be different if you lived in the opposite hemisphere than you currently do? Explain in detail. Use lots of vocabulary words and adjectives.

5TH GRADE SCIENCE SUB PLANS

"THIS RESOURCE IS
FANTASTIC FOR MY SUB
BINDER. IT ALLOWS THE
STUDENTS TO STILL GET
AMAZING CONTENT AND NOT
JUST BUSY WORK WHEN I
HAVE TO BE AWAY. IT IS
ALSO SUPER EASY FOR MY
TEAM TO GRAB AND HAVE
READY IF I AM UNABLE TO
DO SO."
